

Hello Everyone,

As a reminder before we start this upcoming semester, The New York School of Interior Design updates all software in August. Please make sure that the software you use at home is the same as the institution or at least be aware of the fact. Unless there is an issue from the vendor of the product we use at the institution, we will not upgrade anything during the semester. This goes for both undergrad and graduate campuses. [Below is a list of current software used at the institution.](#)
